

1. Insert the mounting ring into the duct.
2. Fasten mounting ring into duct using the holes at the rear of the mounting ring.
NOTE: Follow label instructions in the mounting ring for proper orientation of vertical & horizontal blades.
3. Insert the grille into the mounting ring with the blades at a slight angle. Rotate the grille until it locks into place. The "U" tabs should fit around the tightening screws.
4. Adjust the vertical & horizontal blades to a proper orientation and tighten using a Phillips screw driver.
